

Usage of BITIMAGE READER

The 'bitimage reader' is a data converter from Black-and-White Windows Bitmap file to hexadecimal text file.

Launch bitimage_reader.exe.
Press data read button.

A file open dialog will be appeared.
Choose windows bitmap file.
(Note: Black-and-White only.)

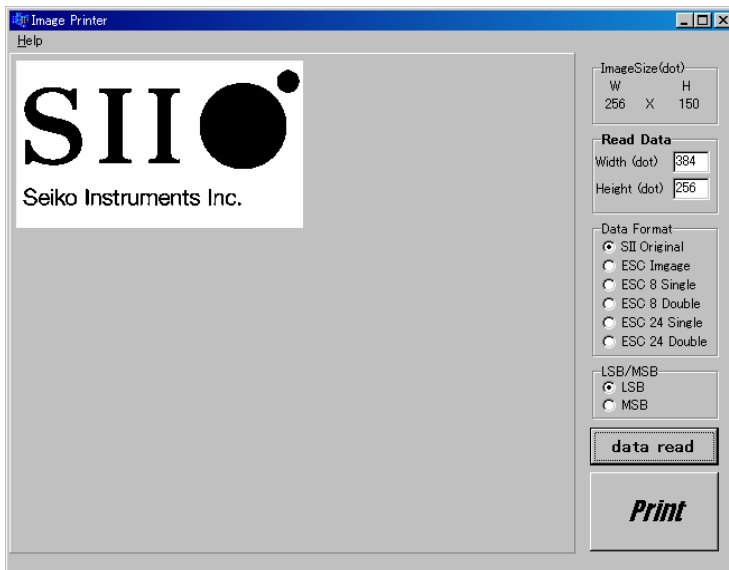

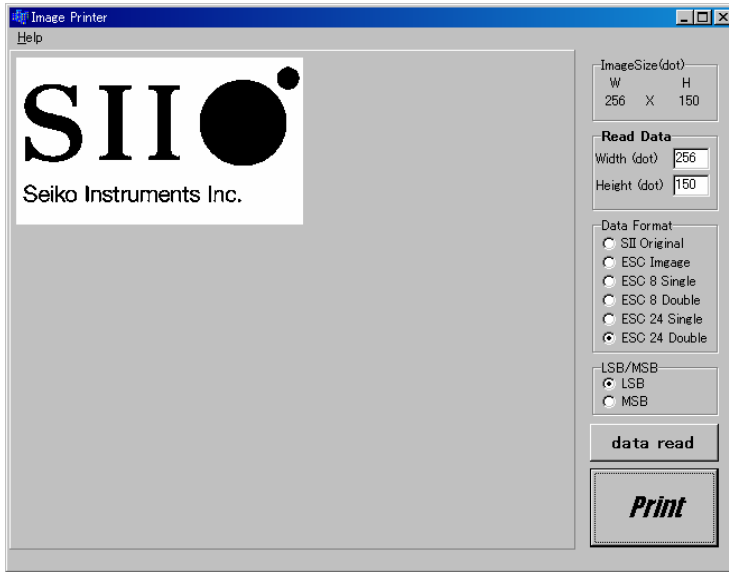

Image will be appeared.

1. Rewrite image size
2. Select data format
3. Choose LSB/MSB first
4. Press 'Print' button

Input file name.
